Dear Avian

Re: Northern Ireland Oversubscription and Buyback Scheme

Thank you for your recent joint TSO submission of the 'Northern Ireland Oversubscription and Buyback Scheme' as required by condition 2A 2.1.17 of your licence.

The Utility Regulator has considered the proposed scheme in line with the requirements in Regulation (EC) No 715/2009 Annex 1 2.2.2 relating to Congestion Management Procedures (CMP).

Decision

Accordingly, the Utility Regulator approves the Scheme submitted to NIAUR on 10 January 2014.

You should note that once the Scheme is activated we will monitor the use of over subscription capacity by network users and in future we may use the relevant powers to make changes to the Scheme consistent with our statutory duties as we believe appropriate.

Yours sincerely

Brian McHugh
For and on behalf of NIAUR
