2nd July 2007

Dear Danny

**Re: BGE (NI) Code Modification Proposal 2**

I refer to Iain Osborne's letter of 6<sup>th</sup> March 2007 in respect of the above named code modification.

Following your e-mail to myself of 14 June 2007, I understand that you wish to request a further delay in the implementation date to 1 December 2007. Furthermore I understand that firmus, who proposed this modification, are in agreement with the delay. This is acceptable to NIAUR and I therefore approve your request.

Please note that NIAUR is not yet granting approval of this modification. Draft changes to the code have still to be put forward, and until such drafting is available NIAUR is not in a position to grant approval of the actual modification. It is assumed that draft changes to the code will be circulated to relevant parties in accordance with your Code Modification Rules.

I trust this instruction is clear. Please feel free to contact me if you have any queries.

Yours sincerely

  
Brian McHugh
