Subject: Modification Proposal to BGE(NI) Transportation Network Code

Dear Donal,

Please find attached details of a Proposed Modification to the BGE(NI) Transportation Network Code.

A. Description of the nature and purpose of the modification

The purpose of this modification proposal is to:

- Modify the BGE(NI) Code to take account of the differences between the BGE(NI) Code and that of PTL.

B. How the modification better facilitates the relevant objective

The modification facilitates a level of consistency between the BGE(NI) Code and PTL Code.

C. The Clauses of the BGE(NI) Transportation Network Code which it is proposed to amend

It is proposed that the necessary modifications be made to the BGE(NI) Code to facilitate an Interruptible service. Modifications would be required to various sections, including:

Section 1 Capacity Booking

Section 2 – Nominations

Section 3 – Allocations

Section 6 – Capacity Reduction and Emergencies

Section 17 - Accession to the Code and Exit Point Registration

And any other changes required as a required as a result of modifying the sections described.

D. The date proposed for implementation

November 2005

E. Impact on other Designated Pipeline Operator's Network Codes:

BGE(NI) Distribution and Supply believe the proposed modification helps to ensure a continuing high degree of consistency in the Codes throughout the Postalised Network in Northern Ireland.

Yours sincerely,

Joe McGowan
Regulatory Affairs Manager
