Please find following our response to *Transitional Arrangements for CAM*

Kind Regards  
Sharon

**SSE Response to Transitional Arrangements for CAM**

SSE welcomes this proposal as a clear and straightforward method of transitioning from current entry capacity arrangements into those required by CAM. The proposal offers three methods of acquiring entry capacity

for the transition period maintaining flexibility for Shippers. SSE appreciates this proposal is well timed and will allow adequate consideration to be given to bookings for the coming Gas Year with appropriate knowledge

of proposed arrangements or intentions for the following Gas Year. SSE requests that Code Modification No. A062 Section 3.3: *Bundling of Capacity at Interconnection Points* (Section 3.3.8) be reviewed so that where

appropriate, possible and in line with *EU 984/2013 - CAM* the ability to bundle all capacity at the earliest opportunity is facilitated.
