## **CODE OF OPERATIONS**

### **NOTICE TO SHIPPERS**

#### **PURSUANT TO THE CODE OF OPERATIONS**

#### **PROPOSED MODIFICATION**

#### **Code Modification A082 'Establishing Framework and Rules for the Acquisition and Release of Incremental Capacity at IPs'**

#### **COMMISSION'S INSTRUCTION**

Pursuant to Section 13 (1) of the Gas (Interim) (Regulation) Act, 2002, the Commission hereby approves modification A082 '*Establishing Framework and Rules for the Acquisition and Release of Incremental Capacity at IPs*' and directs Gas Networks Ireland to proceed to legal drafting.

Code Modification A082 seeks to facilitate compliance with forthcoming CAM Amendments in relation to Incremental Capacity. In order to ensure compliance with said Amendment, the TSO must establish rules and processes for acquiring and releasing Incremental Capacity at IPs. The relevant provisions regarding determination of whether Incremental Capacity is required and, if so, how such capacity should be delivered, approved and allocated shall be reflected in the Code.

This modification will require amendments to Part A (Definitions and Interpretation) and Part C (Capacity) of the Code of Operations.
