

PTL Comments on the Application for Change to the BGE(NI) Transportation Network Code Modification Rules

1. PTL acknowledge that the BGE (NI) Code Modification Rules have been changed to maintain consistency between all DPO Code Modification Rules. Although there are some typographical differences between the PTL and BGE Code Modification Rules the principles within each Code are consistent.
2. PTL note BGE (NI)'s intention to communicate with "Consultees" primarily using electronic mail and the BGE (NI) website, (section 14 and clause 3.6. of the BGE (NI) Code Modification Rules respectively). PTL feels there is merit in this approach and may revise the PTL Code Modification Rules accordingly.
