5th March 2015

Dear Avian

Re: BGE(NI) Code Modification Proposal 13

Thank you for your recent submission of the Final Modification Report in respect of the above named modification. The modification covers the introduction of a new section of the BGE(NI) code, the 'Transition Document.' This contains procedures to apply until 1 October 2015 and how existing entitlements of capacity will be treated after this date.

The Northern Ireland Authority for Utility Regulation (NIAUR) has considered the issues raised by this modification and the FMR.

BGE(NI) conclusion

BGE(NI) states in its FMR that the licensee's relevant objective (condition 2.4 of the BGE(NI) Licence), would be better facilitated as a result of this modification.

Authority review and conclusions

We note no responses were received by BGE(NI) during the consultation period.

We have considered whether the modification would better facilitate the 'relevant objective' as defined in your gas conveyance licence – Condition 2.4.1.

Accordingly, we have concluded that the modifications proposed should be made.

Decision

As provided for in condition 2.4.7(c) of the BGE(NI) licence we direct BGE(NI) to implement the modifications set out in the FMR submitted on 29 January 2015.

The modifications should be implemented in March 2015. You should note that we may use the relevant powers to make changes consistent with our statutory duties in future as we believe appropriate.

Yours sincerely

Tanya Hedley
For and on behalf of NIAUR
