Dear Donal

Re: BGE (NI) Code Modification Proposal 2

I refer to Dermot MacCann's letter of 15 February 2006 in respect of the above named code modification.

Following your e-mail to Brian McHugh of 26 September 2006, I can confirm that that your proposal to delay the implementation date to 1 March 2007 to tie-in with the streamlining process is acceptable. This date is however a long way off, and it is hoped that the actual implementation will occur in advance of this date.

Please note that NIAER is not yet granting approval of this modification. Draft changes to the code have still to be put forward, and until such drafting is available NIAER is not in a position to grant approval. It is assumed that draft changes to the code will be circulated to relevant parties in accordance with your Code Modification Rules.

I trust this instruction is clear. Please feel free to contact Brian McHugh if you have any queries.

Yours sincerely

Iain Osborne
For and on behalf of NIAER
