Subject: RE: Proposed Modification 3 to BGE(NI) Code - Entry Point Realloc ations

Aidan,

Thank you for forwarding the above mentioned modification.

We believe that the proposal is unclear and the impact upon shippers on the NI network cannot be properly defined. As a result and in order for us to fully understand the modification we request that Firmus provide detailed examples as to how the proposed modification would affect the current regime.

At this point in time Centrica strongly opposes this modification.

Should you wish to discuss this matter then please do not hesitate to contact me.

Regards,

Keith Sanderson
