Role: GTMS Analyst
Area: Business Services
Sub-Area: IT Applications
Location: Cork/Dublin
Salary : Competitive

Duration: Permanent   **Ref:** GNI972

Gas Networks Ireland operates and maintains Ireland's €3bn, 14,758km national gas network, which is considered one of the safest and most modern renewables-ready gas networks in Europe.

Over 720,000 Irish homes and businesses trust Ireland's gas network to provide efficient and reliable energy to meet their heating, cooking, manufacturing and transport needs.

The gas network is the cornerstone of Ireland's energy system, securely supplying more than 30% of Ireland's total energy and almost 50% of the country's electricity generation.

Gas Networks Ireland is aiming to deliver a repurposed, resized and fully decarbonised gas network by 2045. Its "Pathway to a Net Zero Carbon Network" envisions transforming the existing gas network into two separate systems carrying 100% renewable gas, one dedicated to biomethane and the other to green hydrogen, with the potential to carry approximately 30% biomethane and 70% green hydrogen, as well as offering significant long term energy export opportunities.

Gas Networks is an organisation with a very strong legacy and a culture founded on pride in our purpose, to keep Irelands energy moving, and commitment to our vision, to be at the heart of Irelands energy future. Our organisational values demonstrate what is important across the organisation including building on our experience across our organisation to build towards our sustainable future, doing what's right for each other and for the people and communities that we serve and finally energised for the change of our future towards a renewable energy landscape. Throughout your career in Gas Networks Ireland, you will be part of an organisation that has a strong commitment to supporting and developing our workforce today and into the future. You will also have an opportunity to get involved in our ambitious iBelong programme ensuring a diverse, equitable and inclusive environment for us all to thrive. Finally, our Time to Talk Mental Health programme and our wellbeing initiatives ensure we provide support across many areas as you work in our organisation.

The Role:

The IT team within Gas Networks Ireland (GNI) is an embedded and integral part of the business providing operational, strategic and customer focused IT services, which include, IT Strategy, and Architecture Services, Gas Applications, and Technical Operations capability.

The GTMS Analyst role will report to the GTMS Lead and will ensure the direct delivery of business changes to the GTMS application.

The role requires an in depth understanding of the Wholesale business processes of the GNI business. GTMS is the main system falling under the remit of this GTMS Analyst role.

Duties and Responsibilities:

- Support business stakeholders in translating their business requirements into functional requirements, ensuring that business requirements are understood, documented and agreed.
- Support and operate a formal change management process with respect to application changes.
- Assist with the delivery of business changes to business applications including the analysis, design, development, testing and transition of changes to applications in a live environment, as required.
- Build up a deep understanding of key business and wholesale market processes.
- Provide functional support for business applications and, where required, assist with the support of the ongoing successful day to day operation of business applications and the resolution of critical or high priority incidents.
- Participate in IT project teams as necessary with close engagement with the PMO and liaison with external resources/service providers as required.
- In collaboration with other IT teams and key business stakeholders, support the agreement, compilation and maintenance of an application work programme.
- In collaboration with other IT teams and key business stakeholders, support the planning, scheduling and delivery of the application work programme including, where necessary or appropriate, supporting user acceptance testing, user training and business readiness.
- Support the ongoing high level management, governance and care of business applications with respect to, for example, issues like contract management and compliance, licence management and compliance, user management and reviews.
- Support the ongoing management of relationships with business application related vendors.
- Provide out-of-hours cover as part of a standby rota if required.
- Any other duties as required.

Knowledge, Skills and Experience:

- A third level degree or equivalent qualification is required. IT qualification would be a distinct advantage
- Minimum 3 years relevant experience in a similar or comparable role is required.
- An ability to analyse and understand complex functionality and complex processes is required.
- Strong analytical skills and the ability to identify and analyse problems and to identify potential improvements and solutions is required.
- You have experience as a systems analyst.
- Knowledge and/or experience of ROI, NI and UK gas market processes would be an advantage but is not essential.
- You will be a strong team player and have a demonstrated ability to bring teams together.
- You will be a natural collaborator seeking out opportunities to share knowledge and improve results.
- You will have a clear communication style and will be able to influence others effectively.
- You are comfortable with change and have a demonstrated ability to identify opportunities for improvements and efficiency
- You have demonstrated a commitment to developing new skills in yourself and others.
- You are results focused and have a track record of getting results through others.
- You are comfortable with making and taking appropriate decisions.
- You are committed to providing excellent customer service and have a track record of delivering excellence through others.

Applications, including current Curriculum Vitae, should be emailed to the following address stating the job title and reference number in the subject line of your email:
recruit@gasnetworks.ie

The closing date for receipt of applications for this vacancy is the **21ˢᵗ October 2025.** Please note that applications submitted after this closing date will not be accepted.

Gas Networks Ireland is an equal opportunities employer
