**Sub-Area:** Network Operations  
**Location:** West  
**Salary:** Competitive

**Duration:** Permanent **Ref:** GNI102

---

Gas Networks Ireland operates and maintains Ireland's €3 billion, 14,758km national gas network, supplying reliable energy to more than 720,000 homes and businesses. The network delivers more than 30% of the country's total energy and 40% of its electricity generation.

We are dedicated to achieving net zero and advancing the energy transition through integrated planning and collaboration with the energy industry. To realise our vision and to be at the heart of Ireland's energy future, we are committed to transforming our network to achieve net zero carbon emissions onboarding biomethane and green hydrogen.

We have a proud legacy, and our values guide how we work every day - drawing on our experience, doing what's right for each other and our communities, and staying energised for the change ahead.

When you join Gas Networks Ireland, you become part of an organisation that invests in its people. We are committed to supporting your growth and wellbeing in a workplace where everyone can contribute and thrive.

The closing date for receipt of applications for this vacancy is **28<sup>th</sup> of May 2026**, and applications submitted after this closing date will not be accepted

### **The Role:**

---

The Network Operations within Gas Networks Ireland is responsible for executing field work safely and efficiently in support of the construction, operation, maintenance and repair of network assets.

Reporting to the Senior Field Operations Engineer is responsible for delivery of the operational activities on the transmission and distribution networks within their region. The Field Operations Engineer C&I will have the following responsibilities;

### **Duties and Responsibilities:**

---

- Delivery of all C&I operational activities planned, corrective, reactive and emergent across the GNI Network, taking responsibility for their safe completion on time, within scope and within budget.
- Identification and Delivery of budgetary efficiencies.
- Delivery of designated capital projects as and when required.

- Managing C&I operational activities in line with GNI Health, Safety and Environmental requirements.
- Providing flexibility to work across regions as required addressing operational needs.
- Working with a team of Engineers, Coordinators, Technologists, Support Staff and Technicians drawn from both GNI and Contractor resources.
- Building strategic relationships across key areas within Gas Networks Ireland and our stakeholder community to ensure Field Operations priorities are reflected across all relevant policies, procedures, plans and schedules.
- Liaising with Scheduling and Dispatch around planned, corrective, reactive operations activities to ensure field operations are providing a safe, effective and efficient service.
- Cross-skilling of operational resources between the transmission and distribution networks.
- Raise risks and issues as appropriate to the Senior C&I Field Operations Engineer.
- Liaise with Consultants and Third Parties as required.
- Participate in the on call rota as required.
- Drive the continued improvement of operational processes and procedures.

### **Knowledge, Skills and Experience:**

---

- Engineering degree or other relevant qualification.
- Minimum of 4 years Natural Gas or related technical environment experience.
- Knowledge of hazardous areas with ATEX certified equipment.
- Knowledge of operating and maintaining SCADA / Distributed Control Systems (DCS)
- Proven track record in the area of field operations/maintenance.
- Proven track record providing exemplary customer service.
- Proven track record in change control management of processes and procedures.
- Provide coaching in the development of the technical skills and abilities in others.
- Excellent analytical and problem solving skills, coupled with the ability to generate innovative technical solutions as required.
- Clear communication style and will be able to influence others effectively.
- Demonstrated a commitment to developing new skills in yourself and others.
- Driver of high standards for individual, team and organisational accomplishment and delivering desired results.
- Proven track record with dealing with complex issues, proactively and in a timely fashion, along with the ability to communicate complex information to others.
