**Role:** E,C & I Technician
**Area:** Network Operations
**Sub-Area:** Networks Operations
**Location:** Galway (West Region)
**Grade:** F (€44,097 - €66,146)
**Duration:** Permanent
**Ref:** GNI178
**Closing date:** 7th December 2026

Gas Networks Ireland operates and maintains Ireland's €3 billion, 14,781km national gas network, supplying reliable energy to more than 720,000 homes and businesses. The network delivers more than 30% of the country's total energy and 40% of its electricity generation.

We are dedicated to achieving net zero and advancing the energy transition through integrated planning and collaboration with the energy industry. To realise our vision and to be at the heart of Ireland's energy future, we are committed to transforming our network to achieve net zero carbon emissions onboarding biomethane and green hydrogen.

We have a proud legacy, and our values guide how we work every day - drawing on our experience, doing what's right for each other and our communities, and staying energised for the change ahead.

When you join Gas Networks Ireland, you become part of an organisation that invests in its people. We are committed to supporting your growth and wellbeing in a workplace where everyone can contribute and thrive.

If your application is successful, your starting salary will be determined within the pay range based on your skills and experience. The market reference point (midpoint) of the range typically represents the higher end of the initial offer and reflects a level at which an individual is considered fully proficient in the role. This structure also allows scope for ongoing salary progression as the employee continues to gain experience and develop in the position.

To apply, email your application, including your CV, to recruit@gasnetworks.ie, quoting the job title and reference number in the subject line

**The Role:**

The Network Operations function within Gas Networks Ireland is responsible for the construction, operations and maintenance of the Transmission and Distribution networks and executing all field work both safely and efficiently in line with relevant legislation, standards, industry codes and procedures.

Applications are now invited from suitably qualified candidates for the position of **E, C&I Technician.**

**Duties and Responsibilities:**

- Participation and performance in the delivery of planned, corrective and reactive C&I operational and capital project activities on the transmission and distribution networks.
- Performance and monitoring of C&I field activities in line with GNI Health, Safety and Environmental and legislative requirements.
- Validation and calibration of Fiscal Gas Metering systems throughout the GNI transmission and distribution network to ensure full compliance with fiscal metering standards to maintain high accuracy of gas metering equipment and associated BGN calibration records.
- Support the development of new technologies (CNG/Biomethane/Hydrogen)
- The use of Hand Held Technology (HHT) remotely to ensure all aspects of work orders, associated data sheets and specifications are completed accurately, utilizing HHT software features to ensure C&I asset database integrity notifying of any asset discrepancy and reporting HHT issues.
- Maintenance and problem solving on all C&I assets and installations including but not limited to liaising with vendor's on issues, diagnosing faults and endeavouring to maintain minimal downtime with faults and alarms, asset data capture requirements and red line updates on drawings.
- Perform maintenance, operational and high level technical support on all GNI communications networks used by SCADA encompassing configuration, maintenance and set up of routers, switches, structured cabling and modems.
- Perform ATEX inspection and survey on Electrical and Instrumentation assets to ensure ATEX compliance is achieved and maintained across all installations.
- Liaising with local authorities and other third parties as required.
- Identifying risks and issues and utilizing the GNI Hazcon reporting process.
- Providing flexibility to work across regions as required to address operational needs as they arise
- Participation on the On-Call Roster as required.
- Participation in competency assessments and all training requirements.
- Performing other and emergent duties as may be assigned from time to time

**Knowledge, Skills and Experience:**

- Holder of National Craft Certificate in appropriate trade.

- Working knowledge of SCADA and Modbus communications, ATEX, calibration and maintenance of process instrumentation (i.e. pressure and temperature), fiscal metering, heating systems and RTU/PLC systems.
- Applicants must hold a full driving license.
- Proven ability to create and develop good working relationships to facilitate the accomplishment of work goals, coupled with the ability to gain commitment and success from others.
- Good communication and interpersonal skills.
- Have excellent analytical skills, be able to identify and analyse problems and be able to propose and implement solutions.
- Ability to set up ongoing procedures to collect and review information as needed to be successful in your role.
- Proactively identifying new areas of learning and using newly gained knowledge and skill on the job.
- Ability to set own high standards of performance and delivering desired results.

**Equal Opportunities Employer**

---

Gas Networks Ireland is an equal opportunities employer, committed to providing a diverse, inclusive, and supportive workplace. Through our ibelong framework, we work to ensure that everyone feels respected, valued, and able to contribute.

We welcome applications from all suitably experienced candidates, regardless of gender, age, racial or ethnic origin, membership of the Traveller community, religion or beliefs, family or civil status, sexual orientation or gender identity, or disability.

We also value diverse career journeys and warmly welcome candidates returning to the workforce or bringing non-linear experience, including transferable skills gained through life and professional pathways.

If you require any reasonable accommodations at any stage, please contact us at recruit@gasnetworks.ie and we will support you to ensure a positive and equitable candidate experience.

We offer hybrid working arrangements to help you balance work and life, and to support you in bringing your best to the organisation.

Gas Networks Ireland will only hold your data for as long as necessary. By providing a CV, you are agreeing for Gas Networks Ireland to process this information about you. If you have any queries about how Gas Networks Ireland processes your data, see our Privacy Notice or email dataprotection@gasnetworks.

Applications submitted after the closing date will not be accepted.
