Glossary of Terms

The definitions presented in the Glossary of Terms below are provided solely for ease of understanding and shall have no legal effect. These definitions are not intended to supplant existing or future definitions contained in the Code of Operations to which the within Procedures relate.

Annual Quantity (AQ): the estimated quantity of gas in kilowatt-hours (kWh) that a gas point will use in a Gas Year.

Review Period: the period between 1 May and 30 April.

Supply Point Capacity (SPC): the capacity in kilowatt-hours (kWh) at a Supply Point that is deemed to be reserved for the peak day. It is set annually for each Gas Point.

1 Supply Point Annual Quantity Calculation Procedures

1.1 Purpose / Scope

The Transporter shall calculate the Annual Quantity (“AQ”) annually in advance of the Gas Year in respect of each LDM, DM and NDM Supply Point.

1.2 Related Documentation

- FAR Procedures
- Code of Operations - Part F, Section 2 (*Classification*)

1.3 Calculation of Annual Quantity for NDM Supply Points

1.3.1 Annual Quantity for NDM Supply Points will be the scaled historical consumption as calculated by the FAR Procedures.

1.4 Calculation of Annual Quantity for LDM and DM Supply Points

1.4.1 Annual Quantity for LDM & DM Supply Points will be the sum of the Meter Reads, as adjusted by the Transporter in accordance with Part G, Section 3.9 of the Code of Operations, over the Review Period.

1.4.2 Where twelve (12) months consumption information does not exist the Annual Quantity will be equal to figure agreed between the Transporter and the Shipper as part of the new connection process (refer to Section 1.5).

1.5 Publication for NDM, LDM & DM AQ

1.5.1 NDM, LDM and DM Annual Quantity shall be notified to the Registered Shipper on the first Business Day in June of the Gas Year.

1.5.2 Shippers shall prior to the first Friday in August contact the Transporter, with any queries on the Annual Quantity of the Supply Points at which the Shipper is the Registered Shipper.

1.5.3 Where a Shipper believes the Transporter may have erroneously calculated the AQ for a Supply Point at which the Shipper is registered or where the Shipper is in receipt of information, not held by the Transporter at the time the AQ was calculated, the Shipper may request a change to the Transporter calculated AQ. The Shipper shall do so by submitting the reasons for such request in writing to the Transporter.

1.5.4 The Transporter shall no later than 10 Business Days after receipt of the Shipper query respond to the Shipper with respect to the query.

1.5.5 Annual Quantity shall be reflected on the Capacity Register and will take effect from 1 October of the Gas Year.

1.6 Procedure Diagrams

A diagrammatic representation of the Procedure is set out below. This is included for ease of understanding and shall have no legal effect. In the event of conflict between this section 1.6 and 1.3, 1.4 and 1.5 the provisions of 1.3, 1.4 and 1.5 will prevail.

Supply Point AQ Calculation Procedure
